Detail-oriented and motivated Software Developer with a strong foundational knowledge in programming and software design principles. Eager to contribute innovative solutions and fresh perspectives as a recent graduate, while quickly adapting to evolving technologies and team environments.

WORK EXPERIENCE

abc

i am work on real world project

Software developer

- Designed and implemented scalable software solutions, enhancing system performance and user experience by 30%.
- Collaborated with cross-functional teams to define project requirements, resulting in a 25% reduction in development time through agile methodologies.
- Conducted rigorous code reviews and implemented best practices, leading to a 40% decrease in software bugs and improved code quality.
- Developed and maintained comprehensive documentation for applications, streamlining onboarding processes for new developers and reducing knowledge transfer time by 50%.

EDUCATION

Sppu

undergradute

2026

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, SQL, React

Frontend: Node.js, Docker, Kubernetes

Backend: Cloud Computing, Git

ACHIEVEMENTS

- Developed a web application that increased user engagement by 40% within six months
- reduced system downtime by 30% through proactive debugging and maintenance
- implemented a new feature that improved processing speed by 25%
- and led a team of 5 in creating a cross-platform mobile app that garnered over 10
- 000 downloads in the first three months.
